

SVENMIX IMPELLERS

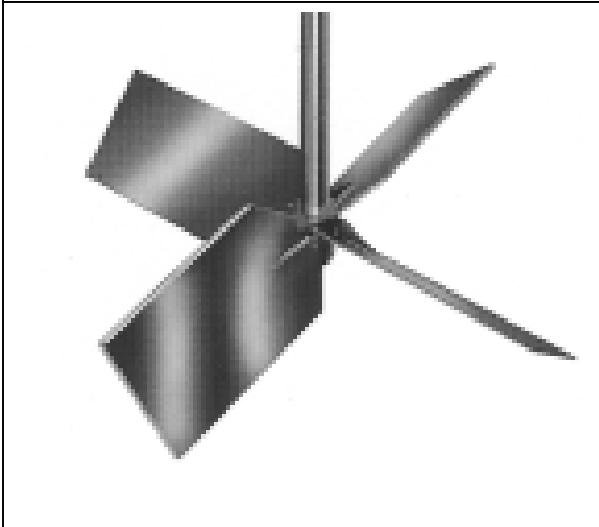

SVENMIX HS and SVENMIX LS Mixers come equipped with Stainless Steel Impellers.

SVENMIX HS Mixers will have 3 blade propeller type impellers from 3.0 to 6 inches in diameter.

SVENMIX LS Mixers are equipped with 3 blade steep pitch impellers from 10 to 20 inches in diameter or with 4 blade axial turbines from 10 to 36 inches in diameter.

Larger sizes are available on request. Hastelloy propellers are available and Teflon coating is available for most propellers and turbines.
